

In Comes a Winter's Wish

**A delightful, sensory,
bedside, performance,
bringing the magic
of winter to
children in hospital**

'I see the children's faces light up when you arrive, and for a wonderful 15mins they forget where they are' Nurse

This magical festive show was created with and for children and their families in hospital.

'In Comes a Winter's Wish' sees **two performers** surprise and delight children and their families roaming hospital wards and outpatient areas, bringing wonder and joy through live music, sensory play, movement and puppetry.

Full of winter magic and festive fun, the intimate 15min show features snow, sleigh rides, snowballs and winter characters all brought to life and experienced from the hospital bed.

Created in collaboration with University Hospital Coventry, the production is highly engaging and inclusive, with adaptations considered for all participants. Infection prevention and control have been embedded throughout, with rigorous processes in place to ensure the work can be enjoyed safely by everyone.

'Absolutely brilliant, this is the first time he has moved his leg in days, he truly forgot the pain-How amazing is that? '

Parent

'That was beautiful, I feel calm & uplifted and this has made my son's day a positive one. Today I saw him smile & enjoy himself and that means so much'

Parent

Do you wish for us this winter?

The show costs **£600 +travel** per day, with the performers doing multiple performances throughout the day.
